

Key Questions

Where do we live?
What is special about where we live?
What can you see, hear and smell at the seaside?
What animals live at the seaside?
How do we keep safe in the sun?
How do we keep safe by the water?

Overview

We will be investigating the life cycles and habitats of seaside creatures.
We will learn how to keep safe and in the summer.
We will be learning that we live on an island.
We will be comparing and contrasting seaside holidays from the past and the present.
We will be investigating bubbles!
We will be investigating objects that float and sink.

Title

Oh, I do like to be beside the Seaside!

Values

Caring
Happiness
Trust
Resilience

Hook

- Rock pooling at the beach

Outcomes

Children will be able to identify simple similarities between animals that live on land and animals that live in water.
Children will know how to stay safe at the seaside.
Children will be able to make simple predictions and talk about why some objects float and some sink.

As a parent you can: Visit the beach and go on a seaside treasure hunt – we'd love to hear about the things you find! Talk to your child about water and sun safety. Ensure your child is prepared for sunny days – provide them with a sunhat, sun cream and plenty to drink.
