

I have learnt about multiplication and division using arrays.

In PSHE we discussed a new skill we have learnt this year and what we want to achieve by the end of year one.

I went on a trip to Sandown Airport.

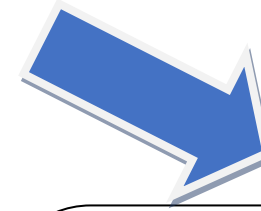

I helped raise money for the Newchurch Nine.

I learned in SCARF how to catch it, bin it, and kill it.

I learnt all about the importance of staying hydrated now it is getting warmer.

In Science we learnt about how to protect different parts of our body.

I can use new subject terminology (columns and rows), and apply them to my work in multiplication and division.

I can spot diagraphs, trigraphs, quad-graphs and split diagraphs in words.

I can write a story based on Emma Janes Aeroplane about a trip around the world!

## Learning Principles Overview Summer 1 year 1

I learnt all about Judaism in RE day and learnt all about how Jewish people celebrate their religion.

In Geography I looked at other countries and cities in the world and understand that all countries and cities are different.

I took part in a whole school Jubilee celebration and performed the song 'I just can't wait to be king' to parents.

I completed a computing lesson with year 3 students, to show them how to edit and change text on Microsoft word.

I took part in a sign and sing assembly performing the song 'sing' for Charity.

In Art we created self-portraits of our friends which made us smile!
